The package has been tested and approved by the beta testers that have been playing the game. Also, I created the game on the new server, which is the new version 1.26. The new version has improvements in some aspects of the game, for example: - New Ability (via new file required) called "Selection Mode" in the "Inventory" menu. This new ability allows the player to choose a part of the map on which he/she wants to play, in addition to the ladder, automatic playing. - New Ability (via new file required) called "Flying" in the menu "
